DETAILED ACTION

The response filed on 27 September 2006 has been entered and overcomes the rejections to the claims.

Allowable Subject Matter

1. Claims 1-34 are allowed.

The following is an examiner's statement of reasons for allowance: The filing of the translation of the priority document has overcome the rejection under 35 USC 102(e). Regarding independent claims 1 and 18, the remaining prior art of record neither shows nor suggest a flat panel display comprised of, in part, at least the channel regions of the semiconductor active layers have different crystal grains for different sub-pixels, along with the rest of the limitations of the claims.

Due to their dependency, claims 2-17 and 19-34 are necessarily allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
